

DR UPGRADE KITS

For your existing portable x-ray machine

It's now easier than ever to retrofit your existing portable X-Ray machine and make it a new, digital machine using our DR Upgrade Kits!

Our DR Upgrade Kits are an innovative solution to retrofitting your existing portable X-Ray machine. You can now easily and affordably make your existing portable an updated, digital machine using our customized pieces. Built with the technician in mind, our Upgrade Kits are convenient to use, easy to install, and engineered for utmost protection of your DR system.

Lightweight, tech-friendly, and inexpensive, these Kits are designed to be used with any 14" x 17" wireless DR detector and are easily assembled directly onto your existing machine.

We've engineered our Upgrade Kits to fit most of the portables on the market, including:

- ✓ **SR-130** ✓ **Dragon** ✓ **HF-110**
- ✓ **SR-115** ✓ **Phantom** ✓ **MinXray**

SR-130 with
inside mount

DynaRad
Phantom

What do our Upgrade Kits Include?

1 DR Panel Box

- Customized to fit any wireless DR Panel!
- Custom logo available for additional charge

2 Laptop Tray Assembly with Slider

- Easy for taking your laptop on and off the X-ray cart!

3 DR Panel Box Mount

- All mounting parts, hardware, and step-by-step instructions to easily install your kit!

4 Optional Add-On: Universal Hand Brakes

- Easy to reach, built to last - No more muddy and prone-to-failing foot brakes!
